Warehouses Network

Main Activities

- ✓ **integrated agricultural service;**
- ✓ **technology development**
- ✓ **full technology package delivery (seeds, fertilizers, plant protection products, agrochemicals etc.)**
- ✓ **phytosanitary monitoring;**
- ✓ **training;**
- ✓ **technology Control;**

THE PLANNED YIELD IS COMPOSED OF:

Arrangement of Integrated Technology Process :

PLANNING

- *Technological solutions for crop cultivation on the certain field.*
- *Selection of crop variety and hybrids.*
- *Agrotechnical and plant protection activities.*
- *Optimal fertilizers applying and plant protection products.*

DIAGNOSTICS

- *Fields and machinery assessment*
- *Seeds phyto-control*
- *Soil examination for the plant minerals nutrition program*
- *Crop phytosanitary monitoring.*

DELIVERY

- > *Special trucks deliveries to the farms*
- > *Certified warehousing up to the application time*
- > *Local farmers trainings (according to accepted agriculture technology and quality requirement) : reasonable use of resources, risks control during crops cultivation.*
- > *Loans to the farmers.*

APPLYING

- *Agroliga Rossii experts take part in the most important technology steps (fertilizers applying, sowing, application of plant protection products etc.) . Control of application regulations and control of the professional advice use*
- *Detail crop control for the farmers , to prove the agro technology methods efficiency*
- *Technological control for the fertilizers and plant protection products applications*

SOME INFORMATION:

- *Annual fertilizers sales – 30 000, 00 ton*
- *About 70% has been bought through the fertilizers commodity exchange*
- *Because of 2009 season special features – 97 % of the volumes has been purchased directly from the mineral fertilizers producers*

OUR PROSPECTS:

- *Setting up the Russian distribution network for the mineral fertilizers sales and deliveries*
- *The fertilizers sales onto exchange practices improvement*

Fertilizers Sales Promotion

Using the world practices to set up the sales with:

- *Fixed fertilizers prices for the farmers;*
- *Fixed transportation costs;*
- *Part of the production costs subsidy;*
- *Fixed orders for the farmers;*
